

13 Dollars— 13 Cents

When Swift & Company paid, say,—13 dollars per hundredweight for live beef cattle last year, the profit was only 13 cents! In other words, if we had paid \$13.13, we would have made no profit.

Or, if we had received a quarter of a cent per pound less for dressed beef we would have made no profit.

It is doubtful whether any other business is run on so close a margin of profit.

This is bringing the producer and the consumer pretty close together—which should be the object of any industry turning raw material into a useful form.

This remarkable showing is due to enormous volume, perfected facilities (packing plants strategically located, branch houses, refrigerator cars, etc.), and an army of men and women chosen and trained to do their special work.

This, and many other points of interest, are found in the Swift & Company Year Book for 1919, just published which is brought out for the public as well as for the 25,000 Swift & Company shareholders.

The Year Book also represents the packer's side of the Federal Trade Commission investigation, upon which Congress is asked to base action against the industry.

Many who have never heard the packer's side are sending for the Year Book.

Would you like one? Merely mail your name and address to the Chicago office and the book will come to you.

IT'S NOT YOUR HEART IT'S YOUR KIDNEYS

Kidney disease is no respecter of persons. A majority of the ill-afflicted people today can be traced back to kidney trouble.

The kidneys are the most important organs of the body. They are the filters, the purifiers, of your blood.

Kidney disease is usually indicated by weakness, sleeplessness, nervousness, despondency, backache, stomach trouble, pain in joints and lower abdomen, gall stones, gravel, rheumatism, sciatica and lumbago.

All these derangements are nature's signals to warn you that the kidneys need help. You should use GOLD MEDAL Haarlem Oil Capsules immediately.

Attention of Equitable of Iowa Policy Holders:

I wish to announce that the dividend schedule of this splendid company will continue to increase during 1919.

Most companies will be unable to maintain their former dividend schedules owing to the heavy mortality of 1918.

The ability to continue the payment of such large dividends to policy holders is due to the foresight of those in charge of accumulating, not only a sufficient surplus to care for the ordinary vicissitudes of the business, but also to their foresight in creating a special fluctuating mortality fund to care for just such a crisis as the one through which the company has passed.

The assets of the company consisting principally of first mortgage loans, have been increased during the past twenty years from approximately \$2,000,000.00 to more than \$25,000,000.00 and in that time there has not been a single foreclosure.

On these high grade mortgage loans there were only four items of past due interest on December 31st, 1918. The interest on three of these items was paid within seven days, so that on January 8th, 1919, there remained one item of past due interest amounting to \$275.00.

There was not an item of delinquent taxes and not a loan with which the company is experiencing any difficulty that might lead to legal action.

All policies secured by State Deposit of Securities.
